Plz,accept the attached essay for the competition, Details:Name: Hariprakash Garg, Father's name: Sh. Govardhandas Garg,Address:30-A Chhipabakhal,Indore, Age:50Yrs. Mobile:8818880933. This article contains unique outstanding ideas and I tried my best to summarise them within 1000words,but could hardly do it. But my main objective is not prize but I want to convey n spread the ideaas & better sense will prevail.

Agra is a wonderful country I proud i living in Agra It has wonderful monuments like Taj Mahal

ARYAMAN AGARWAL_1

User ID: 20079001

Agra Fort and it is famous for leathers work. We are trying to save trees and do not use polythene bags. The education is very good and they have strict rules of traffic rules like we have to wear helmets and walk on zebra crossing and many more things. Only that if it becomes a smart city the honour of our country INDIA will be high

Now Kakinada is good city in its features. But we all want this city to become the best city in our state and country as a smart city. To become smart government should concentrate not only on IT sector but also there are many basic sectors where our city must be developed. For example traffic control - at present traffic is controlled by police and manual power. But usage of traffic signals is very rare. There is a great need of traffic controlling system. All the manholes must be closed.
